Job Vacancy # 018/2018

Environmental Officer

Date: 18 December 2018

Myint & Associates Offshore Supply Base Limited (M&AOSB) is a privately owned specialist service provider poised to deliver a comprehensive suite of operational and specialist technical service solutions to the oil and gas industry in Myanmar. Founded in 2017, M&AOSB is a member of the MPRL E&P Group of Companies, which focuses on creating value within the energy, telecommunications, and property development sectors of Myanmar and driving progress in the nation. M&AOSB is set to grow as we pursue business opportunities to support oil and gas exploration and production offshore Myanmar. M&AOSB is seeking applications from dynamic and highly motivated candidates for the following post:

Job Title	: Environmental Officer
Job Grade	: (6)
Department	: Myint & Associates, Offshore Supply Base Team
Location	: Yangon
No. of Position	: 1 position
Probation Period	: (3) Months
Start Date	: 01 st January 2019

Job Summary

The incumbent will build and operationalize the Myint & Associates Offshore Supply Base Ltd. (M&AOSB) Environmental Management System in compliance with applicable laws, rules, regulations, and commitments. The incumbent will serve as the in-country focal point for all relevant planning and operational support. The incumbent will take a collaborative approach and work closely with the social team to implement ESMP as a whole package.

Job Description

- Manage the ESIA development, compilation and submission processes and any subsequent public consultations in accordance with the Myanmar EIA Procedures.
- Map out an action plan to implement the ESMP and ensure compliance with all legislations as well as company commitments
- Lead the development of M&AOSB environmental management systems, policies, and procedures in support of construction and operational activities

- Monitor by contractors, suppliers, sub-contractors, consultants and other applicable stakeholders for compliance with ESMPs
- Liaise with government departments, partners, and Corporate Affairs team in relation to social performance
- Manage the environmental permitting process and ensure that the necessary permits are obtained in support of operations schedule.
- Develop and oversee the environmental/social audit plan
- Provide internal trainings where required
- Advise leading industry best available techniques and practices are adopted with regard to environmental management, ongoing operations, EMPs, waste management, monitoring, rehabilitation, etc.

Job Specifications: (Educational & Non-educational qualifications)

Education / Experience

- Preferably a BSc in Environmental Science or related field
- Extensive experience in similar role within extractive or related industries
- Engagement and influencing government, community, civil society actors

Special Skills

- Proven track record of delivering high quality ESIA's and ESMPs
- Familiarity with ISO 14001 Environmental Management Systems
- Familiarity with waste management practices/disposals
- Familiarity with environmental legislation
- Familiarity with monitoring systems
- International experience is preferred
- Oil & gas experience is preferred

Periodically, the employee may be expected to perform assigned duties and tasks not covered in this job description as well as to provide support to other departments when necessary.

Interested candidate are requested to submit an application letter with CV, relevant educational certificates and at least three references to Human Resources Department at MPRL E&P Pte.,Ltd.
